We are sincerely desirous of returning our acknowledgements to several gentlemen of both Houses of Congress, for public documents and other favors-but with the exception of our own representative we cannot make out the frank of one of them, and, therefore, not knowing to whose courtesy we are indebted, are profoundly ignorant of the names of the gentlemen to whom our thanks are due. We have only been able to distinguish Mr. Ashe's signature from its resemblance to the figures 1776.

Under these circumstances I judged it superfluous to make a direct communication to the department, as I could add nothing to the information already be-

You say-" If the official account of the Spanish authorities be correct, Mr. Thrasher appears to have expatriated himself, and to have become, at least for

a time, a subject of the crown of Spain." The authorities neglected to inform you that on the 8th of September, 1850, in a communication to the Captain-General of Cuba, I expressly and unequivocally refused to take out letters of naturalization, and thus become a subject of the crown of Spain.

I embrace the present opportunity to transmit to you a copy of a letter addressed by me to General Concha, upon the subject of domiciliation in Cuba. and the trial of American citizens by the permanent military commission of that country.

I submit to you with much diffidence, the arguments it contains, and not as my own views only. but as those of some of the first legal attainments in Spain. These facts, and the known disposition of the government of Cuba towards American citizens in gen- Barque Urania, from Cardiff, with Railroad Iron. eral, lead me to anticipate the most disastrous consequences from the unwarrantable interpretation it may give to your letter.

If the government of Cuba was one administered in accordance with statute and justice-if the law were respected by its ministers-or even if the executive power there, absolute as it is, were guided in its action by any fixed principles-I am well aware there is nothing in that letter which would endanger the person or the property of a single set & Brown, with naval stores American citizen. But while such is not the casewhile not only existing laws are disregarded. but new ones are continually "decreed" by the arbitrary will of one man, as circumstances may seem to him to require-while the ministers of justice and the administrators of executive power seem animated solely by one idea, that a war of races exists-what

To prove to you that I do not speak from personal feeling alone, I will cite a well known fact in the history of that same permanent executive military icans in Cuba. I will only premise that in 1778, tor-ture was declared by Charles III. to be "barbarous and infamous," and was expressly prohibited in Spanish tribunals; and that when the Inquisition fell before the decree of the famous Cortes, of Cadiz, in 1812, that last relic of the barbarous ages disappeared, even from the ecclesiastical tribunals of

The Bank of England covers five acres of ground and to the palace, the ration, can never be known. There were not wanting both American and English victims in this iniquitous affair. Many engineers, and even proprietors, were arrested, not a few of whom died during imprisonment, or in consequence of the sufferings they there experienced.

The sequel is instructive. Pedro Salazar, the tool, fiscal of the military commission, followed his victims, condemned to the Presidio of Seville. Leopoldo O'Donnell, the master spirit, Captain General of Cuba, retired to Spain with something more than one million of dollars, the fruit of three years' loyal

The passage of the Maine Liquor Law has afforded excellent food for the wits to sharpen their masticators on. The following is about as good a joke as we have yet read. No doubt, however, but that we shall have occasion to laugh over many a similar incident before we are many weeks older:

About a fortnight since, a tall specimen of Yankee manufacture arrived in the good city of Portland, in the State of Maine, and established himself and luggage at the Elm Hotel. This luggage consisted of a small valise and a large oblong box, containing, for the inspectors had examined its contents,

After seeing his property placed in the room allotted to him, the pedler made his appearance at the office with a small volume in his hand. He glanced his keen, shrewd eye leisurely around the room, which contained at that moment no one but the clerk and myself.

"Don't get any time to read," replied the clerk. "I rather guess I've got a book here you'd like to

read," continued the pedler, perseveringly. " What is it ?" "Well, it's a real good book, and just right for the times, too, 'cause it'll give a man spiritual con-

solation; and they do say that's what a man can't get very easy in Maine—just about now."

"That's very true: but your consolation, unfortunately, my friend, does not happen to be of the right There was a cunning leer in the peddler's eye as he inquired-

" Fond of the right sort, hey ?" "When I can get it," said the clerk, becoming interested. "Guess I shall sell you this book, then," said the pedler, decidedly.

"What is it-you hav'nt told me the name of it "It's Pilgrim's Progress."

"Oh, bother! I've read it at least a dozen times?"

"But this is an entirely new edition."

And so saying he commenced writing again, visi bly annoyed.

"Say, yeou, - better leok at the picters," continued the pedler, thrusting the book under his nose.

And exchanging a very queer and mysterious look "See here a moment."

I advanced and looked over his shoulder. Turndays, or until after the next semi-monthly departure ing up one end of the book, he removed a small slide. "What is it ?" asked he, laughing.

"Brandy—by jingo!" exclaimed I pausing to take breath, and then making tracks for the door.

"Hello! where are you going?" "Up stairs; it has just struck me that the Pil-
